OBJECTIVE

Driven and talented app developer with expertise in creating and building Flutter mobile applications for the Android operating system. Competent in developing logical and user-friendly cross-platform apps by leveraging best practices, the Flutter framework, and the Dart programming language.

EDUCATION

Cleveland State University. Cleveland, Ohio.

Master Of Computer Science Expected December 2025

Current CGPA-3.87 Semester completed - 3

Gujarat Technological University, Madhuben and Bhanubhai Patel Institute of Technology (new V.V. Nagar)

Bachelor of Engineering, Information Technology 2019-2023

GPA-3.9

PROFESSIONAL EXPERIENCE

Cleveland State University (Department of Computer Science) Cleveland, Ohio

Graduate Teaching Assistant August 2025 – Present

- **Data Science:** Assisting in teaching and grading for an undergraduate Data Science course, covering topics such as data analysis, machine learning basics, and statistical methods. Guided students through lab assignments, graded projects, and provided one-on-one academic support. Along with holding office hours.
- **Introduction to Computer Architecture:** Supporting instructor for an undergraduate Computer Architecture course, focusing on CPU design, instruction sets, memory hierarchy, and performance analysis. Conducting office hours, clarifying concepts, and collaborating with the professor to ensure fair evaluation.

Graduate Teaching Assistant

Jan 2025 – May 2025

- Assisted in teaching two undergraduate course sections focused on core computer science concepts, including arrays, linked lists, stacks, queues, trees, sorting algorithms, and recursion.
- **Section 1:**
 - Proctored all exams and quizzes, ensuring strict adherence to academic integrity policies.
 - Graded coding assignments, lab submissions, and exams, providing constructive feedback to over 40 students.
 - Acted as the primary point of contact for student queries via email and online office hours, offering individualized support on algorithm design and problem-solving strategies.
- **Section 2:**
 - Evaluated student work and projects with attention to code quality, logic, and time/space complexity.
 - Provided clarification and guidance on course material to help students grasp complex algorithmic concepts.
- Collaborated with the course instructor to maintain grading consistency, update course materials, and improve overall student engagement.

Techelecon Pvt Ltd,

New V.V. Nagar, Anand, Gujarat, India

App Developer Intern

Jan 2023- Nov 2023

- Developed and implemented multiple Flutter-based mobile applications, including gear pattern image management and canteen services, integrating user authentication, QR code scanning, and real-time data synchronization to enhance user experience and operational efficiency.
- Hand-delivered the application to the customer, noted their feedback on the User Experience, and incorporated necessary amendments to the application.
- Collaborated with cross-functional teams to gather requirements, design user interfaces, and conduct testing, ensuring the applications' reliability, performance, and compliance with company policies and industry standards.
- Oversaw the group of interns who joined as part of the program, ensuring their timely development was being tracked and resolving issues they encountered.
- Completed two major internal projects, Kaizen, which is published on the Play Store, and the canteen application that is used as a billing method for the company's employees.

Achievements.

- Been a part of a 20-player wood ball (a new sport which involves a mallet and a wooden ball) team that represented Gujarat Technological University at All India University Nationals held at Suresh Gyan Vihar University.
- Led a team of hard-working volunteers as head of the workshop and seminar department during the college tech fest, where we managed billings, materials, hiring experts for the seminar and workshop, decoration, and scheduling the event.
- Worked as an Event Staff member at Wolstein Centre, assisted with crowd control, ticket scanning, and guest inquiries, which trained me in customer service, safety protocols, and event setup/ breakdown procedures.

SKILLS

- Soft skills: Communication, problem-solving, leadership.
- Spoken Languages:
 - English – Overall IELTS score – 7.5 (L-8.0, R-8.5, W-6.5, S-6.5)
 - Hindi
 - Gujarati.
- Programming Languages: Dart, JavaScript, HTML, CSS.
- Frameworks: Flutter, React Native
- Known backend platforms/tools: Xampp, MySQL, SSMS, Azure Data Studio, Firebase, MongoDB.
